Analytics And Metrics

Project Brief:

Task :

Brainstorm **North Star Metrics** and **OKR** (min 2 objectives with atleast 3 KRs) for following products :

1.Amazon prime

Problem Statement:Assume your business goal for this quarter is to reduce churn

North Star Metric:

Retention Rate: The proportion of users who remain subscribed to Amazon Prime over a given period.

Objectives and Key Results (OKRs):

Objective 1: Enhance Customer Engagement

- **KR1:** Increase the number of active Prime members by 15%
  - Track and encourage frequent usage of Prime services such as streaming, shopping, and reading.
- **KR2:** Boost average viewing hours on Prime Video by 25%
  - Promote exclusive content, personalized recommendations, and new releases to keep users engaged.
- **KR3:** Increase the usage of Prime Music, Reading, and Gaming by 30%
  - Conduct campaigns that highlight the lesser-known but valuable aspects of the Prime membership.

Objective 2: Improve Customer Satisfaction

- **KR1:** Increase customer satisfaction score (CSAT) to 90%

    - Regularly gather feedback through surveys and make improvements based on the feedback.

- **KR2:** Resolve 95% of customer complaints within 24 hours
    - Enhance customer service efficiency with better training and support tools.
- **KR3:** Achieve a net promoter score (NPS) of 75
    - Focus on delivering a seamless experience across all Prime services to encourage positive word-of-mouth.

Objective 3: Provide Exclusive Value to Members

- **KR1:** Introduce 10 new exclusive offers or discounts for Prime members
    - Regularly update and inform members about special deals and discounts.
- **KR2:** Launch 5 exclusive content series or movies on Prime Video
    - Focus on creating or acquiring high-quality exclusive content.
- **KR3:** Increase the percentage of Prime members using same-day delivery services by 10%
    - Promote the benefits of fast delivery extensively.

Objective 4: Strengthen Customer Retention Strategies

- **KR1:** Develop a loyalty program with referral incentives to increase member referrals by 20%
    - Encourage existing members to refer their friends and family.
- **KR2:** Reduce subscription cancellation rate by 20% through targeted retention campaigns
    - Offer personalized discounts or additional benefits to users attempting to cancel.

- **KR3:** Increase the customer lifetime value (CLTV) by 15%
    - Implement strategies to keep subscribers longer, such as periodic exclusive events and improved service.

2. Zepto :

Problem statement : Assume your business goal is to reduce contact center cost

North Star Metric:

Customer Resolution Rate: This metric focuses on effectively resolving customer issues, which can lead to reduced repeat inquiries and lower overall contact center costs.

Objectives and Key Results (OKRs):

Objective 1: Improve Efficiency of Customer Service Operations

- **KR1:** Reduce average handling time per customer inquiry by 20%
    - Optimize scripts, train agents, and implement better customer service software.
- **KR2:** Increase first call resolution rate by 15%
    - Aim to resolve customer issues on the first interaction to avoid follow-ups.
- **KR3:** Decrease the number of calls per customer by 10%
    - Implement self-service options and improve product documentation.

Objective 2: Enhance Self-Service Capabilities

- **KR1:** Increase the usage of self-service portals by 25%
    - Promote the use of FAQs, chatbots, and online help centers.
- **KR2:** Reduce the number of repetitive queries by 30%

    - Analyze common queries and develop resources to help customers resolve these without contacting support.

- **KR3:** Expand automated response capabilities to handle 40% more inquiries
    - Invest in AI-driven chatbots and automated email responses for common issues.

Objective 3: Improve Customer Feedback Mechanisms

- **KR1:** Collect actionable feedback from 50% of customers post-interaction
    - Implement post-call surveys or follow-up emails to gather insights.
- **KR2:** Increase customer satisfaction score (CSAT) by 10%
    - Use the feedback to make constructive changes in service approaches.
- **KR3:** Identify and implement 5 new process improvements based on feedback
    - Directly address common pain points mentioned by customers.

Objective 4: Optimize Contact Center Workforce

- **KR1:** Reduce agent turnover rate by 15%
    - Focus on enhanced training programs and better workplace policies.
- **KR2:** Increase agent productivity by 20%
    - Implement performance tracking and continuous improvement plans.
- **KR3:** Ensure 90% of agents complete advanced customer service training
    - Regular training sessions to ensure agents are well-versed in handling various queries efficiently.

Objective 5: Deploy Advanced Technology Solutions

- **KR1:** Implement AI-driven call routing to reduce average wait time by 25%
    - Use intelligent systems to direct calls to the most appropriate agents quickly.
- **KR2:** Increase the adoption of predictive analytics to preemptively resolve common issues by 30%
    - Use data to anticipate customer needs and resolve issues before they arise.
- **KR3:** Reduce call volume by 20% through proactive notifications and alerts
    - Send automated updates to keep customers informed, reducing the need for them to call.

3.Youtube Music:

Problem Statement : Assume your business goal is to ensure that first time users sign up with you instead of Spotify in India

North Star Metric:

Sign-Up Conversion Rate: The rate at which first-time visitors convert into registered users is a key indicator of success.

Objectives and Key Results (OKRs):

Objective 1: Increase Awareness and Attraction for YouTube Music

- **KR1:** Achieve 50 million impressions through targeted advertising campaigns
    - Leverage social media, search engines, and influencer partnerships to boost visibility.
- **KR2:** Increase organic traffic to the sign-up page by 30%

    - Optimize content for SEO, create engaging blog posts, and leverage YouTube's own platform to drive traffic.

- **KR3:** Collaborate with 20 local artists for exclusive content and promotions

    - Offer unique, India-specific content to attract users who are fans of these artists.

Objective 2: Improve User Experience and Conversion Funnel

- **KR1:** Reduce bounce rate on the registration page by 25%

    - Simplify the sign-up process and enhance page loading speed.

- **KR2:** Increase free trial sign-ups by 40%

    - Offer compelling incentives like extended free trials or exclusive features.

- **KR3:** Ensure 70% of trial users continue to engage with the platform

    - Implement onboarding tutorials, personalized recommendations, and timely reminders to keep users engaged.

Objective 3: Provide Competitive Pricing and Offers

- **KR1:** Introduce 3 new subscription plans customized for the Indian market

    - Include affordable, flexible options catering to different user segments.

- **KR2:** Offer a limited-time discount to users switching from Spotify

    - Create a clear, enticing offer to capitalize on potential switchers.

- **KR3:** Partner with local telecom providers for bundled offers

    - Encourage sign-ups through strategic partnerships that add value to the users.

Objective 4: Enhance User Engagement through Personalized Experiences

- **KR1:** Implement personalized recommendation algorithms to increase song play rate by 25%
    - Personalized playlists and recommendations based on user preferences can enhance user engagement.
- **KR2:** Introduce 5 new user-interactive features (e.g., playlists sharing, collaborative playlists) to boost user interaction by 20%
    - Adding features that engage users actively can create a more compelling user experience.
- **KR3:** Increase user session duration by 30%
    - Enhance the user experience to keep users longer on the platform through engaging content and personalization.
